

Golf Cart Fee Increase & RFP

We would like to inform you, on Tuesday, January 17, the Golf Board voted unanimously to implement a price increase on golf cart rentals, effective February 15, 2023.

With this increase, \$2 from every transaction will be added to a golf cart replacement fund, allowing the golf division to lease golf carts and provide our patrons with new golf carts every 3-4 years. We believe this will offer our guests a better experience and improve our current golf cart state.

18-hole cart rentals - \$15

9-hole cart rentals - \$9

This topic has been discussed for a couple years and after reviewing the surrounding facilities golf cart rentals, we believe this pricing is competitive and situates us in the middle of our competitors. We appreciate your understanding.

Golf Wichita is in the process of fortifying a lease for a new golf cart fleet at every golf course. The Request For Proposal (RFP) will be going out across the nation over the next week to give all prominent golf cart companies a chance to earn our business.

Once the winning bid is selected by the review panel consisting of City of Wichita staff and Golf Board members, the order for a new fleet will be placed immediately. The new golf carts will be onsite once the order is able to be filled by the vendor.

The current golf carts are in dire need of replacement. This is one of many huge steps planned to increase the guest experience at all Golf Wichita courses.
